

**CalAir's Cirrus Private Pilot training** will have you ready to take on Los Angeles' complex airspace with the confidence that only comes from a highly standardized curriculum taught by the most experienced flight instructors available. Our flight instructors are placed through a standardized program prior to taking to the skies with you in our Cirrus Design aircraft. Working toward your Private Pilot's license, you'll enjoy visiting several Southern California destinations as you progress through each phase of training to final completion. The freedom and sense of accomplishment earning your pilot's license is incomparable. With a Private Pilot certificate, you'll be able to fly any aircraft within the US, day or night, with passengers, all weather permitting. In Southern California, there are literally dozens of fantastic destinations that are easily accessible within an hour of flying time.

**What's so special about Cirrus Standardized training?**

Our structured Cirrus scenario-based syllabi and modern, interactive instructional materials ensure that you'll acquire the same critical decision-making skills and proficiency that professional airline pilots have.

**So how long will it take?**

The national average to earn a Private License is from 65-70 hours of flight time with an additional 20 hours of dedicated ground instruction. Through CalAir's structured, scenario-based training, your dedicated Cirrus Standardized Instructor Pilot will work alongside you to achieve your goal within this time frame. While there are extenuating factors that may impact this duration, the averages tend to hold true when the student pilot makes the appropriate effort.

**How much will I need to invest?**

An approximate price breakdown to earn a Private License in our state of the art, technically-advanced Cirrus SR20 looks like the following:

<b>55 hours of Flight Time</b>	<b>\$14,575</b>
<b>10 hours of Sim time</b>	<b>\$600</b>
<b>65 hours of Dual Flight (with Instructor)</b>	<b>\$5,525</b>
<b>20 hours of Ground Instruction</b>	<b>\$1,700</b>
<b>Pilot Supplies/Online Courses</b>	<b>\$350</b>
<b>Approximate Total</b>	<b>\$21,000</b>
